Safer Roads Ahead: Japan' s New Rule on Pedal Mistakes

In May, Taiwan had four car (1)**accidents** in just five days caused by elderly drivers. Data from the National Police (2)**Agency** show this trend. Accidents caused by drivers aged 65 and older keep increasing. Japan faces the same danger. To prevent this, Japan will require all new domestic cars to have ACPE by 2028. (3)**Imported cars** must follow by 2029.

ACPE is a system that helps stop sudden (4)**acceleration**. It (5)**senses** when drivers press the gas (6)**pedal** too hard near (7)**obstacles**. At that moment, ACPE limits the car' s speed to under eight kilometers per hour. This is helpful especially for elderly drivers because their (8)**reactions** are slower. ACPE (9)**lowers** the risk of accidents caused by pedal mistakes.

ACPE will help greatly in the future. However, true safety still depends on (10)**alert** and responsible drivers.

參考詞彙: **obstacles**、**Agency**、**lowers**、**Imported cars**、**accidents**、**senses**、**pedal**、**alert**、**reactions**、**acceleration**
